

iPDR-mobile.

PDR Monitoring software for iPhone.

The iPDR-mobile application will allow you to access the PDR range of DVR's in remote locations and monitor live video via network connection anytime, anywhere with your iPod touch, iPhone or iPad. Best of all it is free.

- Supports selection of any camera attached to the remote PDR (up to 32 channels)
 - Screen auto-rotation
- Selectable screen size between original camera aspect ratio and full screen via double-tapping
 - Supports connection using DVRNS (DVR's Name Service)*

PDR-PC series

PDR-RMT series

16 Channel PDR's

8 Channel PDR's

4 Channel PDR's

Download the iPDR-mobile from the APPLE App Store today!

* PDR's should be registered with DVRNS provider in order to use DVRNS service.
