

AVIGILON™

Avigilon Alta Access Premium license features

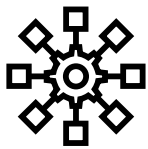

With enhanced multi-site capabilities that prioritize scalability and flexibility, the Premium tier is great for companies managing tens or thousands of users across locations.

Explore our premium access control features

Tools and support designed for multi-site organizations

The Premium tier includes additional support and customizations to help you make the most of your access control:

- Custom dashboards and user fields
- Occupancy tracking, limits and reporting
- Live support 7/days a week
- API and webhook consultations

Advanced Rules Engine

Automate processes across all your connected IoT devices and create unlimited rules with our easy-to-use rules editing tool.

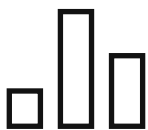

Custom dashboards

Create personalized views using easy-to-add widgets for alarms, occupancy, video and more, so you can see what's important to you in a single glance.

Alarm Management

Prompt immediate action from the operator and reduce the risk of missed alarms with unified alarm management.

Manage and report on occupancy

See real-time occupancy and access historical reports. Set capacity limits to automate and enforce management by zone. Get insight into who is on-site during an emergency with Muster Reports.

Granular permissions

Create and customize site-specific user access and permissions for every location, even on the go, all managed from a single dashboard on the web or in a mobile app.

Unlimited Flexible Lockdown

Proactively safeguard your space with site and event-specific lockdown plans. Remotely activate by entry, zone, and site.

Explore our enterprise-grade access control features

All your locations on a single interface

Manage thousands of users across all your locations effortlessly. The Premium tier includes tools to automate processes and reduce administrative burden when managing multiple sites:

- Customize dashboards with widgets to create personalized views
- Scale operations in a few clicks with fully remote, cloud-based access
- Easily customize permission and sync users across all sites
- Open API lets you integrate with all the tools and apps you use every day

Completely scalable and secure, by design

Avigilon Alta offers complete access control solutions flexible enough to support any door density needed. Our software runs on next-generation hardware equipped with optional Wi-Fi support for network connectivity, and alerts against tampering, plus convenient wiring for quick, low-cost installation to minimize business interruption.
