

✓ **GENDER: FEMALE**

✓ **UPPER BODY COLOR: RED**

AVIGILON APPEARANCE SEARCH™ TECHNOLOGY

SEARCH MADE SIMPLE

Avigilon Appearance Search video analytics technology is a sophisticated deep learning AI search engine for video. It sorts through hours of video with ease, to quickly locate a specific person or vehicle of interest. Appearance Search can improve incident response time and enhance forensic investigations by helping operators compile robust video evidence, create a powerful narrative of events, and reveal a vehicle or individual's route or last-known location.

Find Appearances After This
Searches all cameras for this person after this point

Find Appearances Before This
Searches all cameras for this person before this point

Additional Search Options

INTEGRATED SOLUTION

Integrated with Avigilon Control Center (ACC™) Enterprise edition software, Avigilon cameras with next-generation video analytics and select Avigilon Network Video Recorders (NVRs).

INITIATE SEARCHES BASED ON PHYSICAL DESCRIPTIONS

Allows operators to search for a person or vehicle by selecting certain specific physical descriptions, including gender, hair color, clothing color and age categorization for people and vehicle sub-type and color for vehicles.

Personal Characteristics

Gender

Upper Body Color

SEARCH ACROSS MULTIPLE SITES

Initiate a search for a person or vehicle of interest across one site, then continue the search for the same subject of interest by seamlessly transitioning from one site to the next site that uses the same version of ACC software.

FACIAL ANALYTICS INCLUDED IN SEARCH

Incorporating the unique characteristics of a person's face enables the Appearance Search technology to understand that it is searching for the same person, even if items such as their clothing change over time.

PLAYBACK, BOOKMARK & EXPORT TOOLS

Build a comprehensive set of video evidence from multiple video sources, to create a powerful narrative of events.

TWO WAYS TO BUILD YOUR AVIGILON AI-POWERED SOLUTION

AVIGILON INTEGRATED SOLUTION

Enable Appearance Search by combining Avigilon H5 cameras with next-generation video analytics with our AI NVRs or NVRs that are pre-loaded and pre-configured with ACC software.

ONVIF®-COMPLIANT SOLUTION

Evolve your legacy Avigilon and third-party ONVIF-compliant camera systems with the Avigilon AI NVR, adding next-generation video analytics and Appearance Search when connected to ACC™ software.

For more information visit avigilon.com/appearance-search

*NVR3 Value requires an additional kit to enable Avigilon Appearance Search technology.
